PRODUCT CAPACITY & FLEXIBILITY

The 8010-10S Versi Flex is the best choice for maximizing revenue streams with minimal investment. The cabinet is ambient, making it ideal for selling goods that don’t require refrigeration. With the fastest ROI among all flex machines, you can advertise your specialty products on a 10” LED touch screen or sell advertising space for additional revenue!

DESCRIPTION

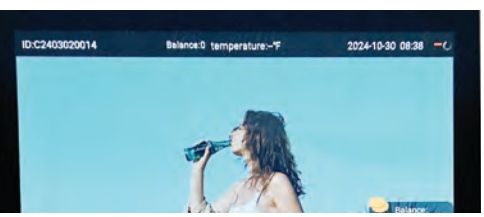

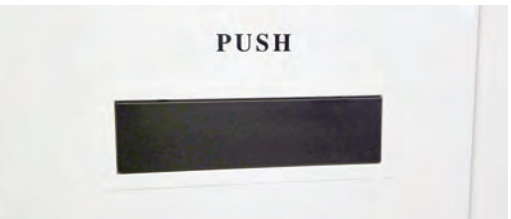

Introducing the VC 8010-10S Versi Flex vending machine, a state-of-the-art solution designed to meet the growing demand for health and wellness products. With it's standard configuration offering an impressive 40 selections, this versatile machine is perfectly suited for a variety of everyday essentials that promote well-being.

The VC 8010-10S stands out with its adjustable shelves and wider columns, allowing you to easily accommodate larger items. This feature enables you to customize your product offerings to include a diverse range of health-focused items, such as personal care products, over-the-counter medications, dietary supplements, PPE supplies, and much more. Whether you're targeting gyms, office buildings, or healthcare facilities, this machine adapts to your needs.

Safety and durability are paramount in the design of the VC 8010-10S. Constructed with **explosion-resistant and smash-resistant** materials, this vending machine can withstand up to one ton of external force, making it an ideal choice for high-traffic environments. Its modular design allows for seamless adjustments to shelf sizes and selection spacing, giving you the flexibility to cater to both larger health products and a varied inventory.

With the **VC 8010-10S Versi Flex vending machine**, you're not just offering products; you're providing a comprehensive solution that aligns with modern health and wellness trends. Elevate your vending experience and meet the needs of your customers with this innovative, adaptable, and secure vending machine.

ADDITIONAL FEATURES & OPTIONS

Remote Monitoring & Intelligent Management System

All VC vendors feature a backend management software. This Cloud Service System allows you to track sales & inventory, run reports, remote temperature controls, receive alerts and monitor your machines remotely. This machine comes equipped with **Remote Health Lock.** Access your machine remotely to monitor the health timer switch during a power disruption at the facility. Avoid unnecessary travel and minimize lost sales.
