DESCRIPTION

The **VC EL10-10D MAX CAPACITY** Vending Machine combines cutting-edge technology with exceptional durability. Featuring a 10" touch screen, operators can upload videos and sell advertising for additional revenue. It comes equipped with backend management software, allowing you to track sales, monitor inventory, generate reports, and receive malfunction alerts. The machine supports a wide range of payment platforms, including Grab Pay, Touch N Go, Boost, Maybank, QQR, Paywave, Payrange, Google Pay, Apple Pay, and more.

Designed with advanced technology, the double-layered glass door is electrically heated to prevent fogging and eliminate condensation. The body is explosion and smash-resistant, capable of withstanding up to one ton of external force. This machine is ideal for locations such as hospitals and government buildings. It's modular shelving accommodates both taller and shorter items, while it's unique refrigeration system offers both cooling and heating, with temperatures ranging from 39°F to 77°F.

Additional features include a secure, lockable cash box, a guaranteed vend system (which holds credit until the product is dispensed), and LED lighting for enhanced visibility.
