MAX CAPACITY

By Vending Concepts

- 10” Touchscreen
- Anti-theft Delivery Door
- ADA Compliant Machine
- 6 Shelves, up to 60 Selections
- Equipped Backend Management Software

PRODUCT CAPACITY & CAPABILITY

The **VC SC10-10 ADA-Compliant Combination Vending Machine** is a versatile, high capacity solution for today’s technology-driven market. It can dispense beverages, snacks, fresh food, or any combination of the three without the need for shims. The 10-inch touchscreen enhances the user experience while allowing operators to display promotional videos and generate additional revenue through advertising.

DESCRIPTION

The **VC SC10-10 ADA Compliant MAX CAPACITY** offers a perfect blend of advanced technology and durability. It features a shopping cart option for multiple purchases, helping increase revenue, and a double-layered, electrically heated glass door that prevents fogging and condensation. The machine's body is explosion- and smash-resistant, capable of withstanding up to one ton of external force.

Equipped with backend management software, operators can easily track sales, manage inventory, and receive alerts for malfunctions. It supports various payment platforms such as Grab Pay, Google Pay, Apple Pay, and more, ensuring seamless transactions.

The machine's modular design allows for customizable shelving to accommodate larger or specialty items, while its refrigeration system cools and heats, with temperatures ranging from 32°F to 77°F. It can vend drinks, snacks, food, and other products with flexibility. Additionally, the VC SC10-10 can be configured with a conveyor system for non-standard-sized items and includes a secure, lockable cash box, guaranteed vend system, and LED lighting.
