PRODUCT CAPACITY & FLEXIBILITY

The **VC FEL9-10 F2 ADA-Compliant** Frozen Food Vendor is designed to offer a diverse selection of frozen foods, including ice cream bars, sandwiches, pizza, burgers, burritos, and more. Featuring an advanced elevator system, it effortlessly vends delicate items. The standard F2 configuration offers 33 total selections, with 12 sandwich and 21 burrito options. A 10” touch screen allows operators to upload videos and sell advertising, providing an additional revenue stream. The machine also comes equipped with factory-installed backend management software for streamlined operations.

DESCRIPTION

The **VC FEL9-10 F2 ADA Compliant Frozen Food Machine** offers a range of features to enhance both operator efficiency and customer experience. It provides real-time sales and inventory tracking, generates detailed reports, and sends automated alerts for any malfunctions. This machine integrates with all major payment platforms, including Grab Pay, Touch N Go, Boost, Maybank, QR, Paywave, Payrange, Google Pay, Apple Pay, and more, ensuring secure, flexible transactions.

The **double-layer glass door** is electrically heated to prevent fogging and condensation, while the body is explosion and smash-resistant, able to withstand up to one ton of force.

ADA Compliant, the VC FEL9-10 F2 is ideal for accessible locations like hospitals and government buildings. It's modular design allows customizable shelving for different product sizes, and the spiral configuration can be replaced with a conveyor system for non-traditional items.

Additional features include a guaranteed vend system that holds credit until the product is dispensed and energy-efficient LED lighting for improved product visibility.

SPECS

The **VC FEL9-10** vending machine by Vending Concepts features an advanced 10-inch touchscreen interface, optimized for ease of use and intuitive navigation. With options for brand-specific customization and targeted advertising, it enhances the consumer experience while creating new revenue opportunities.

Constructed with double-layer tempered glass and vacuum insulation, the **VC FEL9-10** is engineered for superior durability, offering resistance to external impacts. Its intelligent anti-theft partition ensures the protection of internal components, maintains optimal temperatures, and improves energy efficiency.

Designed for high performance, this vending machine operates with exceptional speed and reliability, providing quiet operation and long-lasting functionality. Powered by an eco-friendly, energy-efficient refrigeration system, it also incorporates an integrated wireless remote GPRS Management System, enabling seamless control and monitoring of multiple units, thereby streamlining operational management.
