NEXT-GENERATION AI RETAIL TECHNOLOGY

Meet the VRK AI Smart Machine! Engineered for reliability and intelligence, this advanced cooler or ambient machine features 4 AI cameras, a video screen w/ audio, interactive LED handle, product pushers, and plug-and-play operation. Powered by edge-based AI computing, the VRK processes transactions locally for faster performance, reduced data usage, and lower ongoing connectivity costs compared to cloud-based alternatives, helping operators protect long-term profitability. With global remote monitoring and advanced security, the VRK sets a new standard for unattended retail and next-generation vending.
